## BLACKOUT MOSQUITO NET FOR HATCHES - LARGE

**Dark, cool and mosquito free indoor environment in your boat.** Mosquito net and 100% blackout in the same product. The combination of the two layers of curtain and one layer of mosquito net darkens, lets air through and keeps the mosquitoes out of the boat. It is easily mounted from the inside with a suction cup. It is suitable for roof hatches with interior dimensions up to 720x720 MM. The overlap of the curtain varies depending on the hatch size.

- Mosquito net and 100% blackout
- Pop-up function for easy and quick mounting
- No permanent installation
- Thin, builds less than 3 mm
- After use it folds it into a third of its size
- Suitable for all hatches/brands on the market
- Suitable for hatches with interior dimensions up to 720x720 MM (28"x28")
