

FEATURES

Storage Size – Full sized 1.9m / 75in boat hook that rolls up to the size of a coffee cup for storage. Deck clutter is reduced and minimal stowage space is needed.

Functional – the combination of high strength injection moulding and non-slip rubber makes it ideal for use as a boat hook or for fending off. A high grip foam handle is comfortable and convenient to use.

Lightweight – rollable composite material is incredibly light and strong making the Revolve boat hook around half the weight of traditional designs.

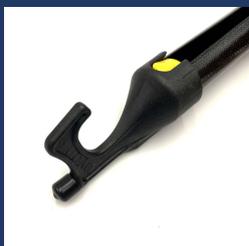

Tough, weatherproof finish – the maintenance free deck gear system made to look good and stay looking good.

Modular system – the boat hook can be swapped for other attachments reducing the need for multiple pieces of equipment and the space they inevitably take up.

Environment – Packaging is minimal and made from recycled material. The product is free of single use plastics and is end of life recyclable

BASE SYSTEM SPECIFICATIONS

Size	Rolled: 11cm x 11cm x 12cm (4.3in x 4.3in x 4.7in) approx., unrolled: 1.9m / 75in approx.
Weight	447g / 0.98lbs (approx.)
Material	Rollable polypropylene composite with integrated foam grip, injection moulded plastic hook with rubber fending tip.
Components	1 x rollable composite handle (1.9m / 75in), 1 x boat hook attachment, 1 x carton.
Part No.	DG00118001S

ACCESSORIES

Deck brush attachment with stiff bristles: maintenance free injection moulded body with an integrated bumper to avoid marking surfaces while cleaning. It is suitable for heavier duty cleaning on surface such as teak, below the water line and other tough areas.

Deck brush attachment with soft bristles: maintenance free injection moulded body with an integrated bumper to avoid marking surfaces while cleaning. It features split end fibers and is suitable for use on gelcoat, clear coat, fiberglass and paint.

Accessory mount attachment: designed so that a range of extra equipment can be mounted on the rollable composite handle. Included with the mount is a M8 female thread and 1/4" male thread.

Boat hook attachment: for the rollable composite handle.

Storage bag: for the for the rollable boat hook and made from soft, breathable material that helps keep the boat hook dry and ready for use.
